

Syeda Zobia Ashraf

Software Engineer · Full-Stack Developer

Karachi, Pakistan · zobiaaashraf@gmail.com

Profile

Software engineer with approximately three years of experience shipping thoughtful, production-ready products across SaaS, logistics, finance, mobile, and AI-assisted workflows. Frontend-led, systems-aware, and comfortable translating product conversations into calm, reliable interfaces.

Selected Experience

Freelance / Full Stack Developer — Remote Building React Native features with FCM, contributing to .NET applications, and translating client requirements into production-ready releases.

Associate Software Engineer, Shispare — Karachi Developed live SaaS-style products spanning 3PL logistics, CRM, ERP, onboarding, warehouse operations, real-time tracking, and document workflows. Shipped driver apps, admin dashboards, live maps for trucks and trailers, client evaluation questionnaires, contract editing, and signing flows.

Frontend Developer Intern, CaterpillHERs — Remote Built responsive Angular interfaces, onboarding flows, profile management, and API-connected product experiences inside an agile team.

Product Highlights

- Truck loading management platform with driver location tracking, admin dashboards, live maps, trucks and trailers, client onboarding, audits, contracts, and signing.
- Resort management system with calendar-based slot booking, multiple invitees, accept/decline flows, payer decisions, and payments.
- Reusable full-stack boilerplates that helped future projects start with a stronger foundation.

Toolbox

React · Angular · Next.js · TypeScript · JavaScript · React Native · Three.js · Node.js · .NET Core · MongoDB · REST APIs · Tailwind · Python · PyTorch · PostgreSQL · Docker · FCM · WebSockets · Azure · AI tooling
